## KELLS IN KIRBY'S HONOR

1996, Homozygous Black, 15.2 hands  
(Spring Hills KCL x Pittridge Shonda)

Kells In Kirby's Honor (Puckett) is "gifted" sport horse and sire of sport horses. He has spectacular movement; a Currier and Ives trot coupled with a rocking horse canter. These two qualities are hard to find in any horse, yet Puckett excels in both categories. An extremely athletic individual, he has inherent ability to jump - he can clear five feet effortlessly. Puckett's sporthorse ability is of no surprise as he is a grandson of the great Kennebec Count. The rest of Puckett's pedigree mainly consists of old Midwest Foundation breeding. Puckett is a proven sire of kind, athletic horses with beautiful movement, substance, bone and have excellent trainability. His offspring have beautiful heads, small ears and are of good size, several have matured over 16 hands. Puckett's incredibly long hip is the driving force behind his powerful, yet exquisite movement. As a sport horse sire Puckett ranks among the best.
