DEER PARK GRAPHIC DESIGN

1995, Bay 15 hands
(Mtn Laurel Maximilian x Medomak Happy Hour)

Deer Park Graphic Design Graphic was bred to be an athlete and an obvious producer of athletes. His blood has proven true on both counts, for a wide array of quality mares from varying bloodlines. Graphic's conformation offers key elements: strong angulation from hip through hock and an overall uphill build. His offspring are uniformly tall and deep bodied, with beautiful heads, large eyes and a loving, kind demeanor. As we witness the glowing maturation of his offspring, Graphic unquestionably qualifies as an exceptional sport breeding choice. Graphic-sired Morgans steal the hearts of their owners and are rarely offered for sale. Whether for their proven talent in the show and sport rings from Maine to California, or their usability as trail and family companions, they are a delight to behold. We hope you'll join the ranks of his supporters by creating one of your own.
